

TAMA. Design: EOOS.

Sublime sculpture. It looks elegant, discreetly sophisticated, is impressive with its flowing lines and above all seems to have one pervading characteristic - it just happens to be perfect: the Tama Table. In its balance of lightness and weight, simplicity and complexity, dynamism and calm, this occasional table demonstrates the fine art of sculptural design. Horizontal and vertical expanses intermingle. Exquisite marble or beautiful, rare onyx marble for the table tops define the room. A self-assured centrepiece – as poetic as it is special.

Product description

Design awards

Table top

157-T1:

Steel, powder-coated bronze matt

157-T2:

Natural Stone:

- Nero Marquina (.115)
- Noir Saint Laurent (.116)
- Onice Champagne (.117)

Top thickness natural stone: approx. 20 mm.

Due to the way they are manufactured, the size of natural stone tiles can vary by +/- 1 cm.

Marble is a natural stone and can be damaged if subjected to mechanical loads, or if it comes into contact with acids, fats or oils. The surface is irregular and has a porous structure - veins, pores and inclusions are natural features. The surface must be caulked so that the material can be worked. Every piece of marble is unique.

Base

157-T1: Steel, powder-coated bronze matt

157-T2: Aluminium, powder-coated bronze matt

Glides

Fitted with synthetic glides.
