

Punctual SHELVING SYSTEM

Punctual is a high-quality modular shelving system made from powder-coated metal that is designed to grow with you and your home. Combine Punctual Ladders, Shelves and Boxes to form your ideal shelving unit that meets your specific needs. Our idea was to create an easily expandable modular system in a vibrant and interesting design, yet timeless and classical enough that it would stand the test of time.

The system is easy to assemble, comes in a range of beautifully soft colour hues and can be used for storing everything from books, boxes, shoes and toys to kitchenware, works of art or beautiful plants. The design registered structure is strong and robust, with a clear reference to industrial shelving systems. Up close, you notice that all shelves are gently perforated with tiny holes, which pleasantly contrast the design's sturdiness and adds a soft, airy and homely feel. As a new addition, you can now add Punctual Shelf Boxes to your unit – great for storing small, loose items, organizing stationary or as a home for your plants and greenery.

Below are six of our favourite Punctual Shelving System combinations – but the possibilities are endless, it's up to you to find the combination that works for you.

FOR THIS COMBINATION WE USED

*3 x Ladder^{m3}
6 x Punctual Shelves
2 x Crosses*
