

Poly Gregg, table design Ludovica+Roberto Palomba 2011

FOSCARINI

A product of natural inspiration and extensive research, Poly-Gregg shape is reminiscent of a large pebble, its surface polished by the water. Pure volume with a familiar ease of interpretation, yet one that is surprising, because Poly-Gregg asymmetric shape changes depending on the point of view of the person observing it. In the home environment the warm, uniform light produced by the white diffuser and its essential style have a strong functional and decorative value. Moreover thanks to the closed shape of the diffuser, the bulb is screened in all directions,

which protects from dazzle. Made of polyethylene, a light-weight material that is also shock-resistant, Poly-Gregg is available in three different sizes: medium, large and extra-large, to blend in seamlessly with any setting and create free compositions.
