## Container General

The container table top range all attached to the container foot in the same way. The container concept is that sand, pebbles or water can be added to the foot to give it strength and stability. Water must always be treated with an anti-algae additive to prevent the water from becoming stale. There are Hex-bolts on the underside of each table which align with equally spaced holes in the container foot.

## cleaning instructions

Mooodi recommends using a good furniture polish and a soft cloth. Apply generously in layers to the surface and use the cloth to shine. Do not use abrasive fabrics, gently remove tough stains with warm water and a trusted multi-surface cleaner.
