# Floor Mirror

Design by Norm

Mirror to go

In the spirit of Scandinavian simplicity, the two Danes behind NORM, Jonas Bjerre-Poulsen and Kasper Rønn, always strive to cut to the bone. To find the simplest possible solution without forgetting the beauty of the shape or the details – all in order to reach a point where nothing added nor subtracted will make the product better.

In our opinion, this is what set NORM aside from other talented designers. And when we look at Norm Floor Mirror, we think they stopped at the exact right point. A beautiful piece of design with simple aesthetics, powerful looks and fine details. Designed to lean against the wall – or to go, stand or hang wherever you find it best.
