

### Bone Trivet Brass

A sculptural stand for the table top designed to hold hot pans and plates or as a decorative table top piece. Cast in solid brass with a matt finish, each stand is shaped into an intricate lattice form. Bearing a bone-like quality, it is cast as one solid piece of brass allowing it to withstand intense heat. Designed in London.

|                   |  |
|-------------------|--|
| Process           | Sand cast brass, flashing is ground and polished. This is left unlacquered and will gradually build up a patina.   |
| Year of Design    | 2013   |
| Material          | Cast brass   |
| Product Code      | BOT01B   |
| Type              | Table accessory  |
| Colour            | ● Brass  |
| Care Instructions | Rinse before use. Designed to be used as a stand for hot dishes, always check your trivet is the correct way up when using. This is left unlacquered and will gradually build up a patina. To clean use warm water, and dry immediately, if you want to polish this you should follow the product guidelines and you will be able to bring this up to a bright brass colour. |
