

# WALL FIGURE

**Design by**  
Frédéric Ruyant

## Description

With Wall Figure, composing a letter or answering an email effectively becomes a sacred moment, thanks to the useful and secret nature of this console-desk. The grain and warmth of the walnut are enhanced by the rigour of the black lacquered steel base. When not in use the desk becomes an elegant console.

The console-desk and matching wall chest can live separately, but also together, with the wall chest offering an additional storage space above the desk. The sliding mirror adds a touch of glamorous luxury to contrast with the mattness of the walnut veneer. The depth of the console-desk and the flap enable a 17" laptop to be accommodated. The height of the work surface (with flap open) is 74 cm.

Base of desk in black lacquered steel. Chest in MDF finished in European walnut-grained veneer. Wall chest has sliding mirrored front.
